

1st Fly-in Experiment | November 13, 2021

Name:

Hour:

Place of experiment:

Record the name(s) of the projective technique(s) chosen, individually or in combination, during the experiment:

- Projective Mental Saturation Technique
- Projective Factor Technique (projective target)
- Other(s) _____

How did you feel before trying the projection?

(In terms of the holosoma - energies, emotions, feelings, ideas, physical body conditions, etc.)

Regarding extraphysical experiences, which phenomena did you identify?

(For example: chakra activity, ballooning, energy bath, clairvoyance, clairaudience, olfactory perceptions, ectoplasm, temperature changes, partial limb projection, intracranial sounds, precognition, retrocognition, extraphysical vision, blind projection, common vision, unicolor vision, etc.)

How did you feel after the projective experiment?

(In terms of the holosoma - energies, emotions, feelings, ideas, physical body conditions, etc.)

Have you identified the *Fly-in* projective target?

- Yes
- No
- I have some level of doubt about what happened

Describe what you identified:

Have you had any experience related to comunex Interludio or reurbex?

- Yes
- No
- I have some level of doubt about what happened

Describe what you identified:

Describe the projective event experienced (Projectiography)

Analyze the experience (Projectiocrítique)

2nd Fly-in Experiment | November 14, 2021
